

26 July 2010

Dear Friend of Jamestown Cycle Shop,

While operating our business over the years, we at the Jamestown Cycle Shop have forged many terrific relationships with our co-workers, customers and vendors. These relationships are, and have been dear to us both professionally and personally. As we now face a difficult situation, we would like to take this opportunity to ask for your support.

Earlier this month, Derek Marsh, the 13 year old son of Randy and Sue Marsh, was diagnosed with Leukemia. He currently is in good health and spirits, but is going through chemotherapy that will send his cancer into remission. Although the Marshes are well insured, the ongoing treatments will force the family to incur many expenses that are not covered. Because of this, the Cycle Shop will sponsor a **Golf Tournament** to benefit Derek and his family on **Saturday, September 11th 2010** at **South Hills Country Club**.

Among other things, one of the ways we hope to raise funds is by selling raffle tickets for a chance to win prizes the day of the tournament. It is in this capacity we would like to ask for your help. Please feel free to donate any items you may think appropriate for a raffle and assist us make a tough set of circumstances for the Marshes a little more manageable.

Please feel free to contact us if you need any further information, have any ideas or want to help in any other way. We thank you in advance for anything you are able to contribute.

Sincerely,
